## **Safeguarding 1 refresher**

Sport Ireland has now gone live with an on-line Safeguarding 1 Refresher, a web-based education resource aimed at providing further training to those who have previously attended a Safeguarding workshop or equivalent.

The content contains four modules which will provide persons in roles with regular responsibility for children an opportunity to learn about:

- i. best practice procedure;
- ii. understanding of why safeguarding children and young people in sport is important;
- iii. recognising the different categories of child abuse and identify the signs of abuse;
- iv. and the responding, recording and reporting issues of poor practice or abuse.
